

GSR TAP WRENCH WITH LEVEL VIAL MADE OF STEEL

The new design of GSR Steel Tap Wrench gives the tool body made of high-quality steel which presents a higher performance capacity. The hardened adjustable clamping jaw can be adjusted via a guide groove milled into the chuck between the jaw and the handle. As a result, the jaw can be adjusted precisely and the tap clamped perfectly. Additionally, this GSR Steel Tap Wrench contains a countersunk level vial, which enables the users correctly align the tap. The whole design approved by patent protection.

Hexagonal Connection design makes the torque times.

Knurling Handles against slippery operation.

Level Vial makes the operation easier and more precisely.
* Patent protection

Wire-cutting process the Jaw keeps precise chucking range.

Ludox Steel Body presents modern smart outlooking.

Different Color and Wordings options bring customers personalities.
