

ASSORTMENTS

The product category "assortments" includes tool sets, tool packaging as well as assortments for the DIY section. Tool sets are divided into groups for processing internal threads and processing internal and external threads. We also offer empty metal boxes for all our assortments.

The DIY programme with the environmentally friendly GSR cardboard packaging and the new GSR tap box is designed for the latest sale systems. Single packaging and assortment packaging can be combined to the GSR product line. This way GSR also had the latest solutions for hardware stores specialist retailers.

▶ METAL BOXES

GSR metal boxes are made of steel sheets according to DIN 1541 with a thickness ranging from 0,3mm to 0,5mm. The sheets are protected against corrosion by a high-quality powder coating. Descriptions, labels and company logos are applied via screen printing. Therefore, even small series with individual labelling, which is firmly attached to the product, are possible at short notice.

The metal boxes are sent out in a neutral white slip case. On request, the carton can be imprinted with a four-colour print. Metal boxes are environmentally friendly, resistant and durable. Especially their sturdiness and heat resistance during tough workshop usage are appreciated. There are six different base sizes. The internal mounting is set by the tools.

IMPRINT

INDIVIDUAL COLOUR CHOICE

The GSR metal boxes can be delivered in various colours.

▶ THREADING TOOL ASSORTMENTS

Assortments are tool sets for cutting internal and external threads with matching tool holders, optional with tap hole twist drills, in metal cases or plastic boxes. Individual contents as well as customized company imprints are available upon request.

ASSORTMENTS

INDIVIDUAL IMPRINT

The GSR metal boxes can be imprinted and labelled individually.
